Why High School Athletics Matter

“High school athletic programs exist to give our youth a safe, social outlet to exercise their bodies in addition to their minds. High school sports serve as the classroom where our athletes learn more about themselves, about competition, and that life isn’t fair at times. High school sports should teach us that hard work pays off, that the team is more important than the individual, and that it is possible to both win and lose with class, dignity and respect. These are life lessons that are very much needed to be a well-adjusted and successful adult.”

Our Objective and Our Purpose

OUR OBJECTIVE

Win games. Our work on the field, in the weight room and in the cages helps us compete at the highest possible level.

OUR PURPOSE

Have a positive impact on the lives of our players through their experience in the Baron Baseball program.

What We Want Every Player to Know

VALUE

Your value is not defined by what you do on the baseball field.

BELONGING

You are cared about.

IMPACT

Coaches and parents support you in making a positive impact in the world. You will always be part of FV Baseball.
